## PORT ANDRATX HOUSE FOR SALE

This townhouse in a small community in Port Andratx has been built in 1983 and it has been completely refurbished in 2019. It has access from two streets and is well positioned in a tranquil area, close to a beach and the yacht harbour. In total it has three levels and is distributed as follows with a constructed area of about 107 m²:

The main access is over a terrace from the upper road. On this top level there is the living/ dining area with an open plan kitchen, a guest toilet, the terrace with sea views and the open staircase, leading to the middle floor. At the entrance area there is a laundry area with access to the kitchen. On the middle level there are three bedrooms with two bathrooms, one with an en suite bathroom. With the renovation of the house the massive staircase has been eliminated and there is a transparent, modern staircase offering a lot of light. On the bottom level there is a storage, a technical room and the access to the parking area. There are no community costs, as there is no community established.
